SPIRIT OF PROGRESS

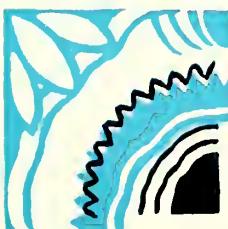

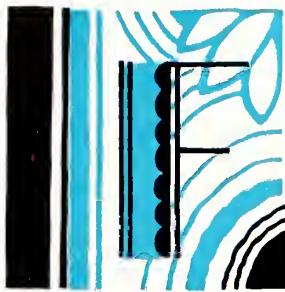

TIION...

BECAUSE he has
been so very instru-
mental in the evident
progress of Elmhurst

College, and, because he has been so very
instrumental in the promulgation of the
spirit of the progress of Elmhurst College
throughout the entire country, we dedi-
cate "The 1930 Elms of Progress" to
President Timothy Lehmann

FOREWORD

Elmhurst College closes this year a very significant era of its existence. Only men have passed through its portals, only men have enjoyed its teachings, only men have written its history! Now women will share with the men the responsibility of "carrying on"—a decided step toward progress.

As a memory book of the events during the last year of the "reign of men alone" at Elmhurst College, we present to you this twelfth volume of the Elms—more expressly called "The 1930 Elms of Progress".

The Class of 1930

EDWIN H. HOFFMAN, *President*

WILLIAM C. GRONEWEG, *Vice-President*

PAUL SCHWEIGERT, *Sec'y.-Treas.*

The history of the class of 1930 is a very unusual one. Each year that the class of 1930 pursued its activities upon the campus, members dropped out and new ones joined the class, until in the final year there were but sixteen left, divided equally at Eden and Elmhurst, out of forty-five members who began as Freshmen in the fall of 1926.

Not an activity can be found at Elmhurst which has not had, at some time or other during the last four years, one or more representatives of the class of 1930 in its ranks. Members of the class of 1930 have filled such notable and responsible positions as captain of the football team, captain of the basketball teams of the last two years, editor of the Elm Bark, editor of the Elms, and president of the Student Union. The various organizations on the campus have always had among its officers and in its ranks members of the class of 1930.

The class of 1930 has been known all through its four years of existence at Elmhurst as the most sociable group of fellows on the campus. Each year the members put on some striking and unusual social affair. The "Senior Bull Sessions" of 1929-30 became the talk of the campus.

Small but mighty, the class of 1930 leaves Elmhurst College with the unique distinction of being the last class to graduate before the inauguration of co-education.

E. BEIER

THEODORE BEIER

St. Louis, Mo.

A.B.—HISTORY

"Ted" spent much of his time at River Forest, Illinois, as a help to financing his education. Being industrious, he was often found reading his books on the way to and from work. In the spare moments which remained for him, he wrote to his girl friend or practiced on his horn.

He was little worried by the problem of life; because he was blessed with a carefree spirit. But to those things which he thought of importance, he applied himself diligently.

We shall remember Ted as a most practical and matter-of-fact man who in all of his deeds proved the motto, "Things worth doing at all are worth doing well."

He has found happiness in Eden; since St. Louis means to him friends, home, and the completion of the preparation for the ministry.

EDWIN BEIER

St. Louis, Mo.

A.B.—HISTORY

This is the end of a long career for "Ed" at Elmhurst. He began as a freshman in the Academy, finished seven consecutive years there, then took his final year's work at Eden. During his time at Elmhurst he showed his musical ability both in the Band and in the Glee Club. He always carried the respect of his fellow students, which was demonstrated by the fact that he was president of his class for two years.

Ed has gained fame among those who know him for his ability to argue any side of any subject. Mention must also be made of his mechanical skill; for we know that many a dilapidated and antiquated vehicle has been esoterically nursed back to life by him. A man with such varied abilities certainly has a bright future.

T. BEIER

THE ELMS . . . 1930

KARL BUFF

Union, Ill.

B.S.—CHEMISTRY

Buff was born with the mechanical bent. Experimentation on radios, cars, and all manner of divers mechanisms is his established avocation. Being of German-American descent, to him, life is work. So he pursued the Unknown up and down test-tubes into mystic inscriptions. Being American, he is practical, giving commercial value to the urge for activity by re-establishing weary Fords and sending them back into life's work.

As president of the German Club, Buff brought zest and humor into the organization. The I. R. C. has also been under his able supervision.

Buff is a romantic grenadier; independent, a gay companion, free in his associations with men, without ostentation in his serious labors. In that jolly frame is a craftsman spirit—time will bring out!

K. BUFF

R. CURTIS

RALPH CURTIS

Sauk City, Wis.

B.S.—MATH. AND SCIENCES

Athletics are Ralph's prime interests. However, he does not neglect the class and other campus activities. Ralph joined the class of 1930 in its junior year and because of his pleasant and likeable manner, he quickly became a friend of all the fellows.

In football, Ralph made a name for himself as a quarterback of no mean ability. In basketball he captained the team of 1928-29 to many a victory because of his brainy playing and excellent leadership.

Ralph is a capable leader. He can lead an intelligent discussion on current topics and scholarly subjects as well as he can lead an athletic team. He knows men and their ways. It would not be surprising to find Curtis among the outstanding coaches of the country in years to come.

AUGUST GROLLMUS

Ada, Ohio

A.B.—SOCIOLOGY

August is one of the very few of the few seniors who has spent four full years at Elmhurst. But Elmhurst is much better for it.

August was a worker. When the grass grew, it was August who trimmed it; when the snow fell, it was August who led the shoveling crew; and when there were studies to prepare, August found time to study and to study hard!

"A friend to the friendless" was August. He was willing to offer his bit of advice to anyone in trouble. And those who received advice from him realize its value.

For four years August saw the Glee Club improve, and just so did the Glee Club see August improve as a singer. August was one of the charter members of the German Club, and its president in the year 1930.

RUTHERFORD DeLURYEA

Vincennes, Indiana

A.B.—SOCIOLOGY

Those who knew "Bus" the first year he was with us no doubt had little hope for him. But "Bus" changed, and worked hard, and will get his degree even if he was forced to miss a semester of school.

"Bus" has been one of our star basketball players. He was the Business Manager of the 1930 Elms, a member of the Student Union Executive Committee, and also a member of the Y. M. C. A. Cabinet.

"Bus" is a serious student; he has not only his studies at heart, but he is also anxious to help carry the world's burdens. His energetic spirit shows great possibilities. We hope he will find the right channel into which he may turn and so be able to make the most of his capabilities.

WILLIAM C. GRONEWEG

St. Joseph, Mo.

A.B.—ENGLISH

"Bill" is a man well fitted for many hard tasks. Besides the unrequiting task of editing an excellent annual this year, "Bill" also edited the Elm Bark during his Junior year at Elmhurst. Those activities together with his activities with the Glee Club, Masque and Buskin, and Y. M. C. A. have brought "Bill" to the fore as one of the outstanding members of the class of 1930.

That quiet attitude of reserved yet unbounding good will towards all those about him, has set "Bill" high in the hearts of his fellow students. With his great ambition of furthering his studies, we see a future, perhaps as a professor of Literature, that will bring success to "Bill" in the truest sense of the word.

W. GRONEWEG

E. HOFFMAN

EDWIN H. HOFFMAN

Portland, Oregon

B.S.—BIOLOGY

Although of a quiet nature, his indomitable persistence in his studies and his extra-curricular activities make "Ed" one of the most popular men on the campus. During every year of his college career he held many of the important offices of the student government.

"Ed" was one of the outstanding athletes on the campus. Besides being a good basketball player, he is a tennis player of great ability. As captain of the 1928-29 tennis team, he led them through a very successful season.

In the scholastic competition, "Ed" stood almost at the top and it can easily be said that he took his college career seriously. He has worked hard to prepare himself for a medical career, and we feel sure that he will be a credit to the profession.

THE ELMS . . . 1930

L. KRAMER

LEONARD J. KRAMER

Sandusky, Ohio

A.B.—SOCIOLOGY

"Doc", the liberal and freethinker of our group, is one of those fellows who accepts nothing on authority but must think everything through for himself.

As president of the Liberal-I. R. C., "Doc" was able to give vent to his argumentative instinct. He was a member and, at the same time, business manager of the Glee Club which, because of his business ability, was able to make several very successful tours during the year as well as make enough money to present the college with a concert grand piano.

Kramer is another member of the senior class who finished his undergraduate work in less than the average time. We feel that if "Doc" continues his great show of activity, he will find himself and help make a name for the class with which he graduated.

ARTHUR NEWELL

Wausau, Wis.

A.B.—HISTORY

"Art" was one of the younger members of the class. His hobby for tinkering in the Biology laboratory won for him the distinction of Biology assistant in the years '28 and '29.

He would go far to defend his principles and often would indulge in arguments. His earnestness won for him numerous friends. We remember as his chief assets, his friendliness and willingness to help others plus the cheerfulness and sincerity with which he faced his work.

"Art" was not given to seriousness all the time, for he loved to "cut up" and found time for pranks and jokes. He also found time to cultivate the acquaintance of that "fair damoiselle" to whom he faithfully wrote a daily report concerning his collegiate activities while studying at Eden.

A. NEWELL

THE ELMS . . . 1930

BENNO OTT

Chicago, Ill.

A.B.—HISTORY

Benno hailed from the city of skyscrapers and heavy traffic. His chief aim at the beginning of each semester was to have his classes so arranged that he could spend the week-end at home with his relatives. He had several hobbies, as most progressive people have: he liked to play chess, to play bridge, and to ride on the train to Chicago on Saturdays.

Ott was a charter member of the German Club which was organized in 1927. During his stay at Elmhurst he attained the honorable position of president of this organization, which he helped to develop.

With success in college and a reputation of a diligent worker, we can predict his future to be a very successful one when he finishes his seminary work at Eden.

B. OTT

S. RECHT

SIEGFRIED RECHT

Cecil, Wis.

A.B.—SOCIOLOGY

"Sid" needs no introduction for we all know him as the social leader of our class. Perhaps the preparations for the famous "Sophomore Frolic" can be mainly accredited to his efforts. Besides leading social events for the class, he also carried on a campaign of his own. After much deliberation, we have finally discovered the "key" to his popularity with the fair sex. It all lies in the moustache which he has been so patiently nursing.

"Sid" can sing! He not only sang in the Glee Club but also held his own in the quartet for three years. His time was so occupied that his vocal lessons were practiced in the halls and wash rooms at all hours of the day. Due to his capacity to argue Sid has proved himself an able salesman. He has many friends and we are sure that future years will add many more.

THE ELMS . . . 1930

H. RITTER

HERMAN RITTER

St. Joseph, Mo.

A.B.—SOCIOLOGY

A green freshman came to Elmhurst four years ago and settled in South Hall. There he became the devoted bell-hop of the contemporary upperclassmen. When a sophomore, however, he became suddenly ripened, after enduring the Dean's wrath for trying to persuade a poor defenseless freshman to perform these same duties. Such is the early history of Ritter's career at Elmhurst.

He was always conscientious and willing to undertake responsibilities in various fields of work. His ability was demonstrated by his splendid work as literary editor of the annual, and, by the accomplishments of the Oriental Club under his able guidance.

Ritter was known by all as a friendly, sincere, and industrious fellow with high ideals and a strong will.

CARL SCHRUPP

Shepherd, Mont.

A.B.—HISTORY

The students who choose Elmhurst as their college come from far and near. Carl might have attended any one of the larger colleges or universities of the west, but he chose Elmhurst because he knew that it had something beneficial to offer him. At Eden he completed his fourth year's work.

Schrupp always excelled in his studies, never was unprepared, and his grades proved that he was hovering near the top of the class.

Carl always had a smile and a helping hand and a willing heart. He had an abundance of friends.

The Glee Club could hardly do without him. His first tenor voice helped carry that organization to success.

Anyone who knows him can clearly see that there is nothing awaiting such a practical man but success in life.

C. SCHRUPP

THE ELMS . . . 1930

CHARLES SCHWANTES

Lancaster, Wis.

A.B.—HISTORY

College was no easy matter for Schwantes. He "taxied" his way through school; but was not hindered from successfully carrying out his school curriculum. As cab driver, he learned the need for service. Service has been his choice for his life's work, as a minister.

Although he was busy with studies, he took time to further the school spirit, and thus distinguished himself on the gridiron.

"Chub" was one of those students who could not be penetrated in a short time, but those of us who really learned to know him found in him depths of friendliness, sincerity, and loyalty. He will be remembered because of his earnest desire for the practical solution of all problems. Even though "Chub" finished his courses at Eden he still holds those memories of Elmhurst precious and dear.

C. SCHWANTES

P. SCHWEIGERT

PAUL SCHWEIGERT

Hebron, N. D.

A.B.—ENGLISH

To look at Paul, one would think he were the quietest fellow on the campus. But let him sit beside you sometime and put forth a question about some of life's deepest problems. It is only then that a person gets the briefest glimpse of one of those deep, philosophical natures that the ordinary person cannot begin to appreciate.

Last year Paul was president of the I. R. C. and this year he was one of the Y. M. C. A. Cabinet Officers. He was also a member of the German Club.

We like to remember Paul as the man with the magazine "Time". His interest in international affairs and his wide range of reading in poetry, drama, and fiction should help him to reach his future goal of becoming a journalist.

In the fall of 1927 there came to Elmhurst College a group of 60 young men full of hope and courage. They wore their "green" caps with pride and accepted their initiation like men. In fact, they can rightfully boast of being the last class which had the grit and backbone to receive the penalties of initiation as the burly upper-class-men saw fit to impose.

As Sophomores, the class was represented in all of the extra-curricular activities. Men for the Elm Bark staff including the Managing Editor, several members of the Elms staff, the most important of which was the Business Manager, were all sophomores. The outstanding social event of the year was the never-to-be-forgotten stag held in an old wooden schoolhouse one wintry night in February.

The year 1929-30 was the most interesting one for the class of '31. The first social function was the celebration of "Class Day". Every member wore striped suspenders, wing collar, and red tie. Tables were reserved in the Dining Hall for the three meals. Perhaps the most enjoyable event of the year was the theatre party held immediately after the first semster exams. Twenty-one fellows attended the Illinois Theatre where they spent an evening full of fun and laughter.

This year the "Jolly Juniors" contributed to every organization on the campus. It can be proud of its leaders, for it furnished the president of the Y. M. C. A.; president of the Masque and Buskin; editor of the Elm Bark, and many other officers and members of staffs.

The Class of 1932

T. N. TIEMEYER, *President*

THEODORE WESTERMAN, *Secretary*

CARL KERBER, *Sergeant-at-Arms*

GEORGE FUCHS, *Treasurer*

With its period of collegiate infancy behind its back, the class of 1932 returned to Elmhurst in the fall of '29 with somewhat thinned ranks, but more intent than ever to leave the indelible impression of its work and achievements. If it were possible to remove the members of the class of '32 with one sweep of the hand, extra-curricular activities at Elmhurst would come to a dead rest.

Not alone in athletics, where the lineups of the squads read much like a sophomore class directory, but also in other extra-curricular activities do the members of the class of '32 show their influence. Glee Club, Y. M. C. A. groups, Masque and Buskin, or any other group on the campus would find its ranks greatly depleted were the sophomores to declare a walkout.

Despite the fact that the days of genuine initiation were over, the sophomores did their bit to imprint in the minds of the new yearlings the true Elmhurst ideas and ideals. Class rushes substituted by an interclass debate, interclass basketball and other contests.

The beginning of the sophomore year meant the beginning of more difficult courses in the class rooms, and even there the members of the class of '32 did not forget that it was their duty to prepare themselves thoroughly for the more important activities of later life. Nearly all of the members are expected to carry on their work next year when they begin the last half of their work at Elmhurst.

THE ELMS . . . 1930

EMIL H. BASSLER . . . St. Louis, Mo.
"EM"

"The only way to have a friend is to be one."

Class President '29; Elm Bark '29; Exchange Editor Elm Bark '30.

THEOPHIL E. BLAUFUSS . . . Denver, Iowa
"BLUEFOOT"

*"I dare do all that may become a man;
Who dares do more is none."*

Glee Club '29, '30; Track 29; German Club 29; Liberal-I. R. C. '29.

An honest worker and a likeable fellow. We find him singing "barber shop tenor" in the Glee Club, stroking the "cat guts" for Miss Heegard and tossing the javelin to earn his "E".

FRANK B. COOKSON . . . Topeka, Kansas
"SAILOR"

"Men, like watches, are known by their works."

Football '28, '29; Track '29; Basketball '29, '30.

OTIS DAVIS . . . Elgin, Ill.
"DAVE"

*"His limbs were cast in many mold,
For hardy sports and contest bold."*

Track '29; Football '29; Basketball '29, '30.

"ART"

"To study or not to study, that is the question."

Band '29; Masque and Buskin '29; Football '28, '29; Baseball '29.

GEORGE E. FUCHS . . . Zanesville, Ohio
"FUCHS"

*"There's no need of rushing,
Life's short enough."*

Elms Staff '29, '30; Class Treasurer '30.

When better pictures are taken, Fuchs will take them. His skill with the camera is remarkable. As one of the student firemen, he always managed to make it hot for the boys.

ROBERT R. GROVES . . . Cannelton, Ind.
"BOB"

"The world knows little about the greatest men."

Basketball '29; Band '29, '30; Elms Staff '30.

THE ELMS . . . 1930

HAROLD H. HAAS Henderson, Minn.
"Bunny"

"Strength—physical, mental, moral!"

Baseball '29; Football '29; Oriental Club '29; Liberal-I. R. C. '29, '30.

"NEBBY"

*"There's a lot of knowledge in his head,
But there's a lot of things he's never said."*

Hohman is a quiet and an unassuming fellow but he has proven to be a friend to all who know him.

HOBART HOLMES Elmhurst, Ill.
"HOLMES"

*"Holmes is an athlete of very great fame,
He adds to the glory of Elmhurst's name."*

Football '28, '29.

Holmes is a hard worker both on the football field and in his studies. He believes that actions speak louder than words.

PAUL HUXOLL Owensville, Mo.
"HUX"

*"Some day I'll be a speaker great,
And use eye to eye contact to get my date."*

Band '29, '30; Track '29; Oriental Club '29, '30; Masque and Buskin '30; Elm Bark '30.

"Hux" is the kind of a fellow who works hard to reach his goal in whatever he undertakes.

THE ELMS . . . 1930

FRED KALKBRENNER Red Bud, Ill.
"KALKY"

*"Happy am I, careless and free,
Why isn't everyone contented like
me?"*

Glee Club '29, '30.

Whenever you want Kalky, stop and listen—don't look for him. You hear that laugh? That's Kalky. He worships the gods Morpheus and Nicotine.

MILO KASPER Lancaster, Wis.
"MIKE"

"I wish I were good looking."

Band '29, '30.

A good student and a hard worker but like all great men he has his weakness—women! Nevertheless, we must say that as a cornet player he blows a wicked horn.

Oriental Club '29, '30.

Beneath an exterior of unconcern is a sincere purpose. "Bill" loves to have a good time now and then.

WALTER H. MEYER Elgin, Ill.
"WALLY"

*"From the day of his birth to the day of his death,
He has talked, and will talk, 'till the day of his death."*

Band '29, '30; Glee Club '29, '30; Track '29; Cross Country '30; Oriental Club '29, '30.

Nothing is too big for "Wally" to tackle. When he is serious he accomplishes much. Now and then, however, Meyer must have his fun.

GLENN MOST Elmhurst, Ill.
"GLENN"

*"Six foot two, eyes of blue,
But oh, what those 'six foot' could do!"*

Glee Club '28, '29, President '30; Band '28, '29; Class Secretary '29; Baseball '29; Tennis '28.

Life for Glenn is one continual song. Where would the Glee Club be without him as their soloist? We predict a very "musical" future for Glenn. Good Luck!

ERNEST PETERS Petoskey, Mich.
"PETE"

"True worth needs no interpreter."

"Pete" has returned to college after a year's absence. He is a quiet fellow but is always willing to do his share of work.

EUGENE PFILE Freeport, Ill.
"DOC"

*"Because he likes his chemistry,
No doubt he'll make a great M. D."*

Band '29; Class Vice-President '30.

Where would our honor roll be without "Doc"? Pfile deserves his position on the honor roll for he believes work comes before play. He is a friendly fellow who will always give you some help.

ERNST O. PRESS St. Louis, Mo.
"ERNIE"

"I ask for little, my wants are few."

Band '29, 30.

ALFRED E. REED Shawano, Wis.
"AL"

*"Not so slender and fragile as a reed,
But graceful and mighty, as befitting
an elm."*

Football '29, '30.

Reed is a new man this year, but we all hand a lot of credit to him for his spirit and fortitude, both on the football field and in the classroom. He knocks 'em cold, but with a grin.

HERBERT F. RINDERKNECHT . . . St. Louis.
"HERB"

*"Quietness is conducive to deep
thoughts."*

"Herb" is the kind of a fellow who would mind his own business. He has not a care in the world but plenty of friends. A gentleman of the "old school", he is one of the fast diminishing group of Elmhurst Academy men.

THE ELMS . . . 1930

EDWARD E. ROBERTS . . . Randolph, Wis.
"TINY"

*"Tiny was his name,
But Hercules his force."*

Football '28, '29; Basketball '29, '30;

terrible rate,
With the ease and speed of a "Hup"
straight eight."*

I. R. C. '29; Track '29, Elm Bark '30,

WILLIAM SCHWEICKHART Hoyleton, Ill.
"BILL"

HILMER SWENSON Oak Park, Ill.
"HAM"

*"Purdue holds no more charms for me,
Elmhurst, my Alma Mater true,
shall be."*

A local man, he adds color to our group. His firm belief is that good humor is the health of the soul, and sadness poison.

MARTIN THOMAS . . . Elkhart Lake, Wis.
"TOMMY"

*"Though many experiences I have had,
I'm really not so very bad."*

Band '29, '30; German Club '30.

LEONARD TODD Pinckneyville, Ill.
"TODD"

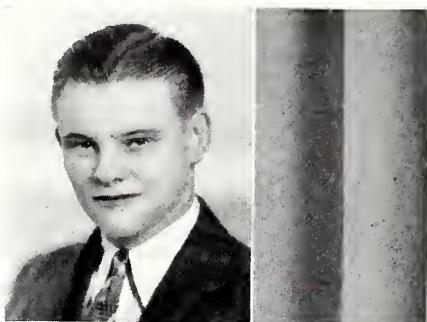

*"His marks may drop, the rain may
pour,
But his good spirits ever soar."*

Band '28; Football '30; Student Union Executive Committee '30.

THE ELMS . . . 1930

EDWIN A. WAHL Berger, Mo.
"ANDREW"

*"Although he looks demure and shy,
Methinks there's devilment in his eye."*

Glee Club '29, '30.

THEO. G. WESTERMAN . . . Anchorage, Ky.
"TED"

"How are you all this morning?"

Glee Club '29, '30; Class Secretary '30.

"Ted" was a quiet fellow, but there were times when he also had his fun. He was diligent in his studies and always attentive in the classroom.

(No Pictures)

ALFRED BRAUN Elmhurst, Ill.
"FAT"

*"Lessons him no longer bore
He doesn't study any more."*

Track Manager '29.

"Fat's" heart is as big as he is. Always friendly and willing to lend a helping hand. His favorite phrase is, "They might look for me but I won't be there." This was especially true of chapel attendance.

HILLIS CASH Elmhurst, Ill.
"\$"

*"He is not in the row with common
men."*

Football '29.

Cash is indeed fortunate—he has the most popular name in the world and isn't hard to look at either.

RALPH REICHLE Milwaukee, Wis.
"RALPH"

*"He speaks only when words are need-
ed and then he says something."*

Reichle is back at college again after an absence of half a year. He has settled down this year and is trying hard study as a diversion. His organ playing has proved an enlightening feature of chapel services.

HERMAN WENDLAND Elmhurst, Ill.
"BUTCH"

"Brawn as well as brains."

Football '29.

Because "Butch" lives in town, we don't get to see him much. "Butch" won a letter for himself on the gridiron.

J. ARTHUR WOLD Glen Ellyn, Ill.
"ANGE"

"Wisdom grows in quiet places."

Football '30; Band '30.

Quiet and unassuming, he played well his part. You should see him play both on the football field, and in the band. We all regret that he doesn't room on the campus where we could associate with him more.

MILTON KEMNITZ, *President*

ALVARO P. RODRIGUEZ, *Treasurer*

Last fall, when Elmhurst was resuming activity for its fifty-eighth year, sixty-three men came on our campus for the first time. They came from every direction; each with the purpose of enriching his life by joining in mutual experience with other men who came with similar intent. Not many hours had passed before friendships began to form which now, as we view them in retrospect, are the most inspirational and vital experiences of our lives.

We had been living together for about three days when another group appeared on the campus. They were already acquainted with the traditions and manners which surround life here at Elmhurst, and therefore, they cordially proceed to do all in their power to make us feel at home. The faculty too, seemed to be anxious to start us off in the right direction and soon manifested their intention in pursuing a plan of their own. Our friends the Sophomores had chosen methods of making us feel welcome, but because of our stubbornness and lack of the cowed and subjugated spirit supposedly characteristic of Freshmen, the Sophomores altered their greeting which nevertheless remained cordial.

Since the first week Freshmen have been taking an increasingly prominent part in all activities of campus life. From athletics and Student Union to organizations and dramatics, the men of the class of '33 have done their part. On some occasions they have gone even farther and showed themselves superior to the esteemed upper-classmen in certain activities both physical and intellectual.

CONCERNING ACTIVITIES

The school is as much a part of life as it is evident that life is a school. Not only in formal courses is there education. Every experience leads into a larger recognition of the responsibilities of life, fits the student or observer the better to meet the emergencies in life. Our training for life actually constitutes life. As I face an examination I am reminded of a variety of tests, to which I am bound to be subjected out of school even more than in school. As I discover a new truth while pondering over an apparently dry statement of facts in a text book I have become a bit wiser and broader.

Now in order that students in college may not go forth with a distorted view of life the college itself offers many actual situations, calling for decision and determination, demanding clarity and alertness. In the Co-op Store the manager may learn how to conduct a store; the manager of the Glee Club finds many opportunities to deal with various types of people; the business manager of the ELMS learns to adjust his psychology as he goes along. The Dramatic Club or the Oriental Club, or any other club for that matter, is an experiment in social life and in some one particular aspect of life, affording opportunity to practice, even though quite apart from the vocational inclination of the student. This adds a charm, and serves as an incentive to participate in extra-curricular activities, since it affords ways and means to acquire voluntarily what the school room offers more or less compulsorily. So long as the student takes into account the various sides of life, not confirming himself to, or unduly emphasizing, any one side, which always carries with it the danger of becoming one-sided, these activities may become real sources of strength, developing character and ability.

The physical side is developed by the athletic program. The mental side by debating, dramatics, etc. The social side by clubs devoted to this purpose, and the religious equally by such as recognize that abundant life is a fully developed, rounded out, wholesome life, in which the spiritual values are considered no less important than any other values.

We heartily encourage these activities provided they do not interfere with the academic program, and provided they offer expression for valuable interests in life. We learn to live by living, and Elmhurst College would gladly foster the better along the way to attain the best.

The Student Union

In a democracy knowledge and appreciation of both the privileges and obligations of citizenship are imperative. Through the Student Union opportunity is given the whole student body to manage its own campus affairs and activities. The Student Union, through its elected student officers, serves as a mediator between the College Administration and the Undergraduate body.

Self-government in affairs of student concern is extended into every phase of campus life. On questions of importance, be they proposed changes in the Dining Hall, dormitory rules, or personal irritations in the campus associations, the whole student body is called together to discuss and designate the action to be taken. These mass meetings are held regularly once a month, giving opportunity to every student for expression of possible suggestions or criticisms. The numerous minor difficulties which arise are settled by direct action of the Student Union Executive Committee.

All other campus organizations are grouped under the Student Union, and subsidiary to it, though every society has absolute right in the pursuit of its own particular affairs. Through the Student Union, the Activities of the independent clubs—Glee Club, Y. M. C. A., Oriental Club, Liberal-I. R. C., Elm Bark, Elms, German Club—are orientated to the whole student body, thus avoiding brittle cliques and groups.

After the election, major offices in the Student Union become tasteless jobs; in a democracy the chosen representatives pay for their high offices.

The Elm Bark

To put out a paper which was "Published in the Interest of Elmhurst College" was the claim of this years Elm Bark staff. The staff achieved its aim, by presenting to the students and faculty every Wednesday, the prominent occurrences on the campus, and, by endeavoring to make the paper the principle instrument of presenting to interested friends and alumni a weekly glimpse of "Greater Elmhurst".

The editorial staff of 1929-30 introduced some new features. Aside from the regular news of general interest, humor section, and section devoted to current literature and drama, two new columns of popular interest were added. A column appropriately termed "Elm Twigs" presented each week, observations of campus life and activity. A further addition was the column headed "The Inquiring Reporter". Each week the inquiring reporter asked various members of the college, a question of student interest, and reported the student replies. This column was not only interesting but also quite profitable in gaining student opinion on campus problems.

The business staff was most successful in making the publication a financial success. The balance sheets indicate that the staff not only assumed its own financial burden, but it also alleviated a debt incurred by previous staffs. This admirable task was accomplished through the untiring efforts of the advertising and circulation departments.

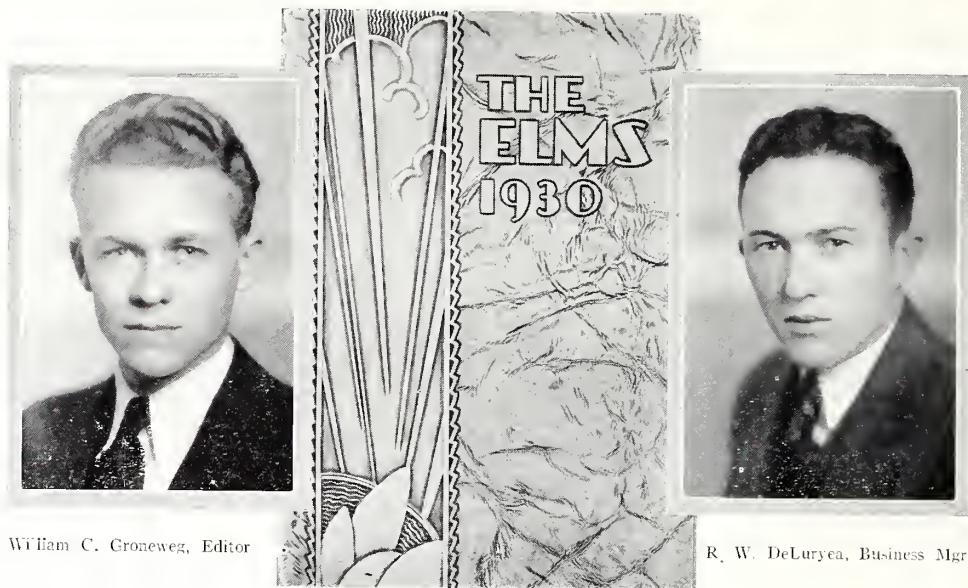

Like wine, the Elm Bark grows better with the years. The Elm Bark represents lots of work, deliberation and energy, but if the hopes of the staff become realities, the results merit it.

The 1930 Elms Staff

Year after year, the question is raised, "Shall we have an Annual?" It is not an idle interrogation, for well do the students know the intricate complications and detailed mechanisms required to produce a successful year book.

Publishing an annual is a thrilling steeplechase in which the staff has a long hazardous course to run. It is beset by streams of contracts, barriers of plans, and walls of materials. But the greatest leap of all is the financial hazard which makes many hesitate before they start the course.

But, since the students realized the value of an annual as an unperishable reminder of cherished events, they entrusted this task to us, and we started the race with unquenchable enthusiasm. We were encouraged by the realization that we represent the sum total of the faith and trust expounded by the school group for the production of this publication.

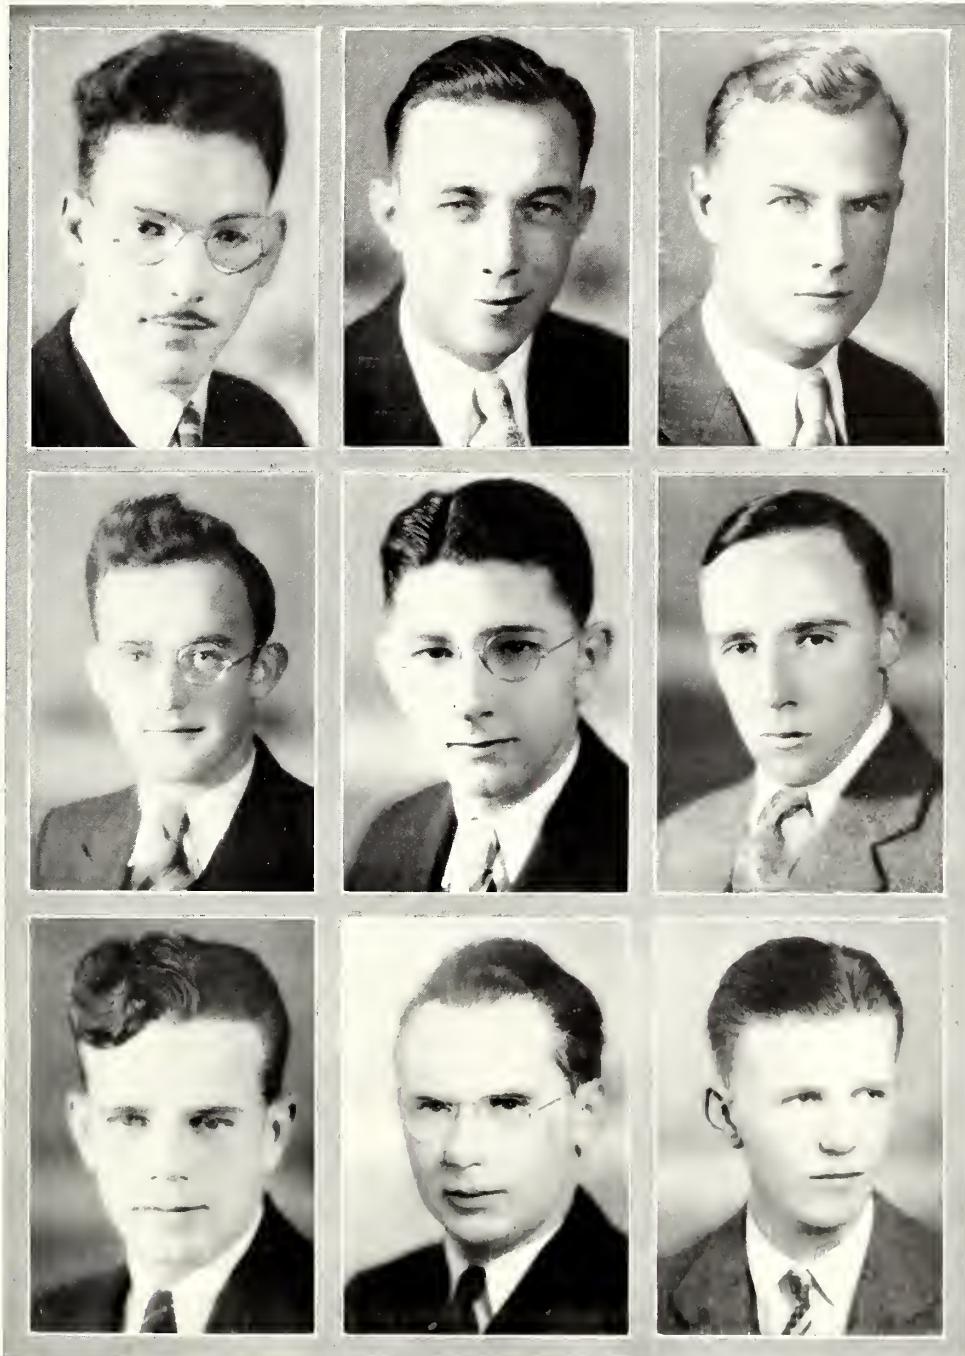

The race has now been run. The staff has successfully overcome the barriers, rivers, and walls, and, thanks to the efficiency of the advertising and circulation departments, we crossed the financial hazard and arrived at the finish in a sound and satisfied condition.

We wish at this time to acknowledge the assistance given to us by various members of the student body and faculty. Also for the suggestions, photos, articles, and financial assistance we have received from individuals and organizations.

We deem it a privilege to have undertaken this task of publication for the students of Elmhurst College.

The Liberal-International Relations Club

Dedicated to a program of liberalism and a study of mechanism of international relations, the Liberal-International Relations Club is an innovation on the Elmhurst campus.

After such preliminary features as the amalgamating of the old I. R. C. constitution with the wider ideals of the newly proposed Liberal Club, the election of officers, and the making out of a list of prospective speakers, the fundamental work of the organization came under way. Speakers with varied viewpoints and ideals were brought to speak before the club. The various phases of liberalism and its implications in religion, politics, history, and social relations were duly emphasized. Authorities on Socialism, Communism, Atheism, and other "radical" topics were heard and appreciated.

Contacts were made with the Socialist Club of Elmhurst and with like organizations from the University of Chicago. Many members of the club also received additional information concerning recent developments in the social field due to their individual affiliations with the League for Industrial Democracy.

The future of this organization is assured. The men who will carry on the work in the years to come will realize greater results for it will be their privilege to nurture the future liberals and internationally-minded men who will work for a higher social system.

The Masque and Buskin Dramatic Club

With the opening of school in September 1924, the Masque and Buskin Dramatic Club was organized. The motive was to present plays, and to encourage the study of dramatics. It has been the policy of the organization since then to give one or more major plays during each school year. The proceeds from these presentations have been used in the development of other campus activities from time to time. During the past two years it has been the aim of the club to be a major help in the student contributions to the Gymnasium Fund.

Due to financial difficulties and conflicting programs, the Masque and Buskin Club was unable to carry out a full program during the past year. Nevertheless, a one-act play, "The Pot Boilers", was presented in October during one of the Wednesday morning assembly periods. This play was under the direction of Prof. C. C. Arends, head of the Public Speaking department. Miss Marion Stringer, Mrs. Loyal Ollmann, Messrs. Gus Pahl, A. Buchmueller, Milton Kemnitz, and Edgar Bowen were members of the cast.

Instead of the usual spring play, the club joined forces with the German Club and Speech Department in the presentation of Lessing's "Minna von Barnhelm" given in German in the College Gymnasium on May 3. Prof. Arends directed the cast and Prof. Blenk coached the lines. The aim of the presentation was to enable the German people of metropolitan Chicago to enjoy an entertainment in their own language.

The German Club

Up to 1927 there was no organization on the campus to bring the German speaking students together. However, in that year a few students set out to organize such a group. This club is greatly indebted to Prof. Kaufmann, former head of the German department, and Prof. Hansen, for their assistance in helping to organize the club.

The purpose of the German Club is to promote the study of German language, literature, and culture; and to foster fellowship among the members.

The club is made up of only those students who have a speaking knowledge of German. Every member is expected to take an active part in the meetings and for that reason the students, under the direction of Prof. Blenk, head of the German department, conduct the meetings themselves.

The club meets once each month. The evening program includes a business session, literary discussion, and a social hour. The literary program consists of topics on German literature, art, and culture together with discussions on present political and economic conditions in Germany. The social hour includes refreshments, folk songs, and toasts.

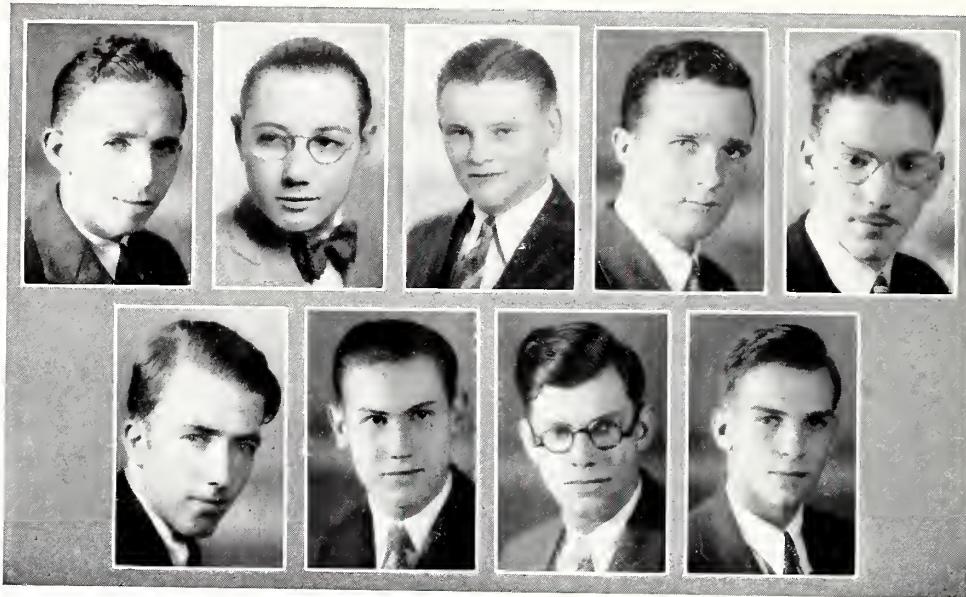

The German Club does not limit its activities to the campus alone. German plays are given in the original German for the people on the outside, thereby stimulating an interest in the German language.

The Oriental Club is an organization which has grown out of the Mission Study Class, which group has held its place on the campus for many years. The Oriental Club is sponsored by the Y. M. C. A. as one of its activities. It was organized in the fall of 1927 and, since that time, the club has enlarged its scope to become better acquainted with the Orient, its religious life, ideas, and customs.

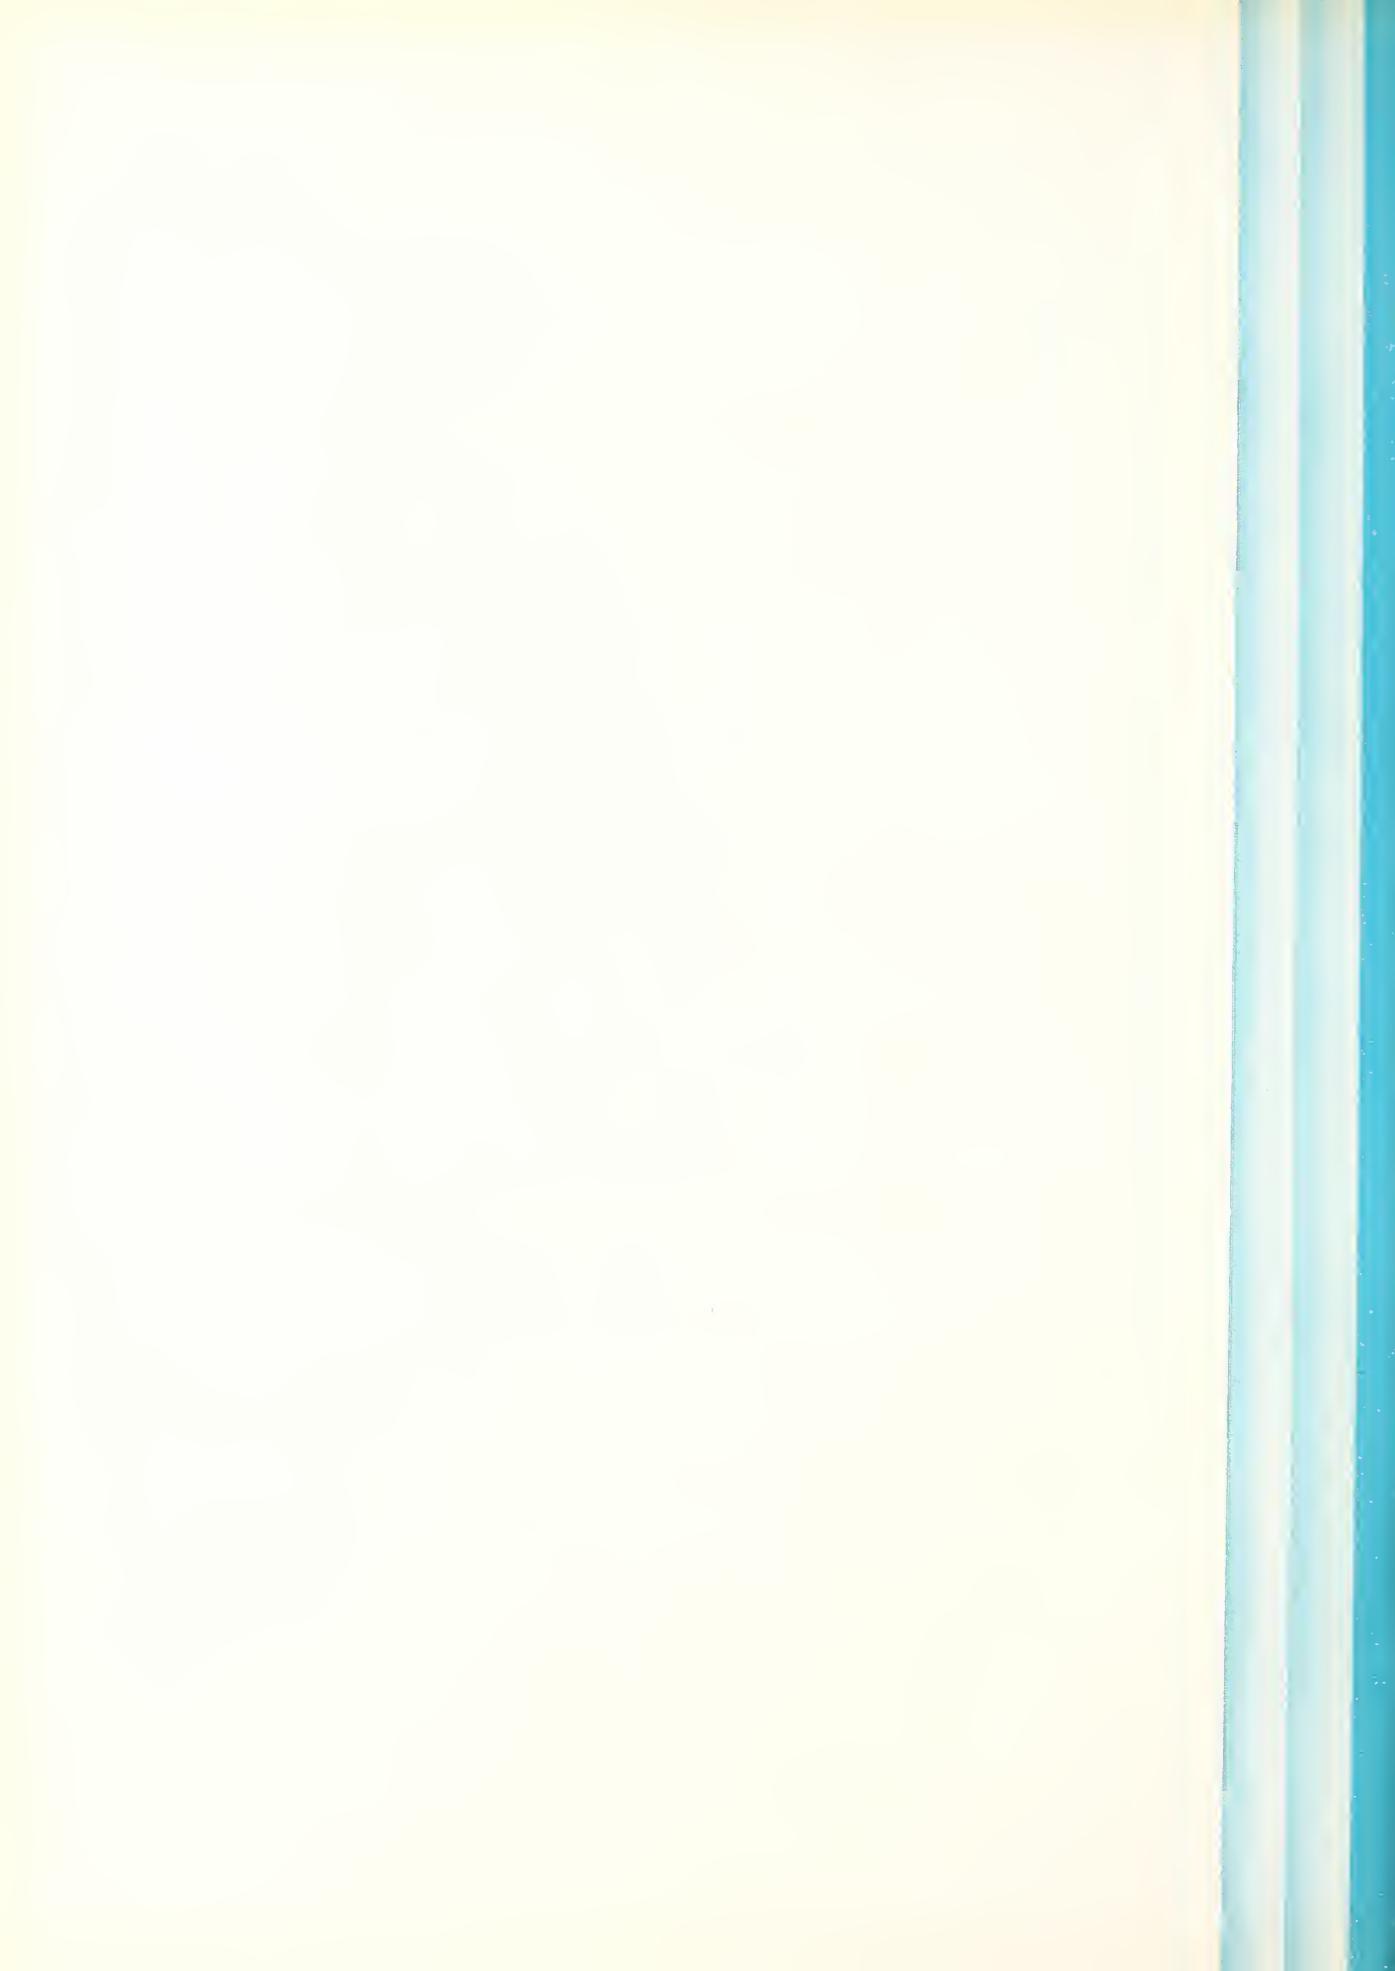

This year the Club has made several trips to Chicago to visit the Chinatown, the Ghetto, and other foreign districts. In this way it was possible to get a glimpse at the actual living conditions of the people of the Orient, which proved very helpful.

Meetings are held every two weeks. At these meetings some topics pertaining to Missions are discussed. In December Missionary Dr. A. Albrecht gave an interesting talk on the customs and living conditions in India.

SCHOOL OF MUSIC

THE ELMS . . . 1930

John C. Minnema came to Elmhurst College to be head of the Music Department in the fall of 1926. He organized the Elmhurst College School of Music and as Dean of that school has done much to put it on its feet. Dean Minnema brought a group of capable teachers to Elmhurst College and gave the residents of Elmhurst as well as the students of the college a chance to get a musical education.

Dean Minnema reorganized the Elmhurst College Glee Club. This organization of thirty members under his direction has been a greater success each year, giving concerts and making concert tours. Dean Minnema also organized a band of forty pieces which plays at all of the college games and also gives concerts.

Mr. Charles Norman Granville was born in London, England, and came to America with his parents at an early age. While he was still very young, Mr. Granville showed an interest in music, but not until he was eighteen did he take up the serious study of singing as a profession.

Since his first brilliant success in a recital in Aeolian Hall in 1912, Mr. Granville has sung repeatedly in practically every state of the Union. In addition to his very active career as an artist, he has given much time to imparting his knowledge to others.

Besides being head of the voice department at the Elmhurst College School of Music, Mr. Granville is also head of the voice department of the Orchard school of Music.

Jan Chiapusso, pianist of international reputation, was born of Italian-Dutch parentage. The years of his youth were spent in study of the piano from private teachers and from conservatories of music in Europe.

Concert tours through Europe brought fame to the pianist whose place among the foremost pianists of his day has since been assured. Among the many honors that have come to him, mention may be made of the Grand Prix, which he won in Paris.

Since 1916 Mr. Chiapusso has made America his home. His master classes at the Busch Conservatory, Chicago and his many concerts throughout the Middle-West and in the East have steadily increased his prestige as a teacher and musician and today he has a constantly growing class of private pupils.

Boga Oumiroff

Boga Oumiroff, internationally known baritone and voice teacher of the Elmhurst School of Music, died Thursday, December 12, 1929, after a brief illness.

Students of Elmhurst College join his many friends in expressing their deep sorrow at the loss of a beloved friend.

Probably Mr. Oumiroff's greatest happiness in his many years of musical activities was his work with the Elmhurst College Glee Club. That organization owes a great deal of its success to his excellent guidance and unquenchable enthusiasm.

We are proud to say that the memory of Boga Oumiroff will live forever in the hearts and minds of the students. Our loss is inestimable, but we know that the fruits of his efforts here at Elmhurst are great, and will continue to manifest themselves in the future.

The Elmhurst College Glee Club has as its objective, the singing of good music in an extraordinary manner for the benefit of Elmhurst College.

To begin the season 1929-30, there were but fifteen seasoned men back. Fifteen new men had to be quickly trained. This was done and very soon the club was ready to appear in concert.

The first tour of the year was completed early in December 1929. This tour included St. Louis, Mo., Rock Island, Ill., and Burlington, Iowa. After the first semester the early Spring tour was taken into Western Michigan. An Easter tour through central Ohio was made during the Easter holidays. This year's post-season tour is tentatively planned for Wisconsin, Minnesota, Nebraska and Iowa. More than two dozen local concerts were given throughout the school year, in addition to the several regular radio dates with W. L. S.

In the middle of December, the Glee Club lost one of its best friends and teachers, Professor Boga Oumiross. It is with deepest regret that the Glee Club singers recall his learning and guidance. Dean Minnema was very fortunate in securing Prof. C. N. Granville to succeed Prof. Oumiross. In the short time that Professor Granville has been at Elmhurst, the singers have learned that he is a man with a deep scientific understanding of voice culture.

Pins and new sweaters were awarded at the first annual banquet held at the LaCasa Tea Room on April 14.

This group of mirth-making collegians owes whatever success it has attained to Dean J. C. Minnema. He practiced with the club week after week, and, because of his untiring efforts, effective A cappella singing was the result.

To the club's excellent accompanist, Waldemar Hille, and exceptionally talented soloist and president, Glenn Most, go a portion of the laurels. The most noteworthy achievement of the year, however, is the result of Business Manager Kramer's efforts: a Mason and Hamlin concert grand piano which was given to Elmhurst College by the Glee Club of 1929-30 at the dedicatory exercises held in connection with our "annual gym concert" on February 12th.

The Elmhurst College Band, under the direction of John C. Minnema, Dean of the School of Music, was organized in the early fall with somewhat fewer members than heretofore. However, only seasoned musicians were admitted to the organization which undoubtedly has done much to raise the quality of its music this year.

The Band is probably the most useful organization on the campus playing for all the football, basketball, and baseball games. The members of the Band accompanied the football team to Whitewater, Wheaton, and Valparaiso where they played an important part in helping to win the games.

A number of concerts were presented during the school year of 1929-30 by the Band. Several concerts were presented in the gymnasium and, during the month of May, Sunday afternoon concerts were presented on the college campus.

In comparison with other bands with which the Elmhurst College Band has come in contact during the year, it was found that the Elmhurst College band has always proved itself to be far superior in appearance and in actual musical ability.

The outlook for next year's band is very good, for with the present band as a nucleus, a fine band is sure to develop.

The Heegard Violin Ensemble

One of the most interesting organizations on the campus is the Heegard Violin Ensemble, which, for the past ten years, has made an enviable reputation in this community as well as elsewhere.

Each year brings a busy season of local and out-of-town concerts greeted by capacity audiences. Numerous programs have also been given over the most popular radio station, such as W. M. A. Q. and W. G. N. Elmer Douglas, radio critic, and other critics of renown, have written many words of praise in honor of this organization. The object of these concerts is not only for the sake of producing "better music", but primarily as a stimulus for the students' interest, pleasure, and progress in the study of music. In addition to this, receipts of these concerts provide for an increase in their scholarship fund and also for educational purposes, such as occasional visits to the Opera and Symphony concerts in Chicago. Thus, it is not all hard work and no play.

Miss Heegard, who is the instructor of these players, is offering a special course to college students in order to make it possible for more members of the college to take part in and benefit by this ensemble.

McFARLAND

OLLMANN

The Coaches

Coach Fred McFarland, although he is known to most fellows as "Mournful Mac", is not as mournful as he is concerned about the success of his teams. He is always on the alert for possibilities for his varsity teams and, through his keen observation of the man taking part in intramural contests and also of his physical education classes, he often finds prospects who later are developed into valuable men.

McFarland came to Elmhurst two years ago with an excellent record made at Wayland Academy, Beaver Dam, Wisconsin. He upheld this record last year when he produced football and basketball teams which gave Elmhurst a new stand in inter-collegiate athletics.

Although the record sheet of this year does not show such a brilliant basketball season as last year, the football record made by the Pirates last fall is the best in Elmhurst's history.

Loyal Ollmann, professor of physics and mathematics, is also assistant coach. He is a graduate of Ripon College and holds a Master's degree from the University of Wisconsin. Before coming to Elmhurst he was professor of physics at Wentworth Military Academy at Lexington, Missouri, and came here highly recommended by that school.

Professor Ollmann is very much interested in athletics, and shows unusual ability in all sports. He took charge of Elmhurst's first cross country team and brought them through a hard season with surprising success.

After cross country was over he charted out a complete schedule of intramural contests in which every student has a chance to take part.

THE ELMS . . . 1930

1929-Athletics-1930

The school year of 1929-30 was not "just another year" at Elmhurst as far as the athletic program was concerned. While the inter-collegiate season was none too glorious in basketball, it was still far from being a "washout". Beginning with the football season, which closed in a blaze of glory, and going on through the basketball season until the opening of spring sport, all athletics demonstrated the true Elmhurst spirit.

Of general local college interest the most important innovation in the athletic program was the "athletics for all" campaign conducted by Assistant Coach Ollmann, who organized and directed the first intramural season in the school's history. Contests were held in football, basketball, volleyball, tennis, and track, as well as the staging of minor contests in subdivisions of the main sports.

Besides the extensive intramural program, one new minor inter-collegiate sport was added to the athletic curriculum: cross country. The first Elmhurst cross country team went through a season of six meets with four victories, losing two meets to Wheaton, runner-up in the conference meet.

While the newly organized harriers were introducing the sport into the college life, the football team was rising to heights heretofore unknown. Opening with what was considered a great dearth of material, Coach McFarland's Pirates went through the season with only one defeat and eight victories, and in doing so it faced the toughest opposition in the school's history. With most of the men back from last year's squad, prospects for another good season are bright, but the schedule will be still tougher than that of 1929.

Basketball came along almost immediately after the last flavor of football had disappeared. Opening the season against the powerful Duquesne University quintet of Pittsburgh, the Pirates went on through a season of alternate victories and defeats, finally closing the season by winning its last two games.

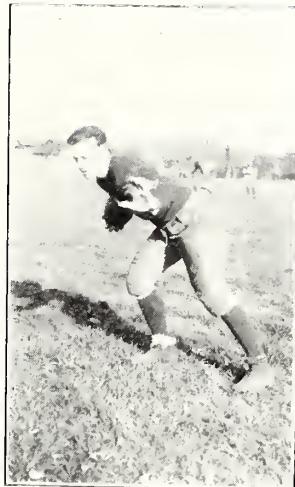

What appeared to be an early spring stimulated interest in baseball, track, and tennis long before the cage season had officially closed. An indoor meet, with outdoor practicing was held in Chicago during the first week of March. Heavy snow later in the month held up work in the spring sports for nearly two weeks, so that little practice was squeezed in before the opening track meet or baseball game.

The outstanding event in the college's athletic history this year was the entrance of Elmhurst into the Little Nineteen conference, officially known as the Illinois Inter-collegiate Athletic Association. While this meant the drawing up of harder schedules for all of the teams, it gives the Elmhurst athletic department considerably more prestige than it could otherwise gain, regardless of its number of victories.

Another high school track meet was sponsored by the local college athletic authorities, this time an invitation meet called the "Elmhurst Interscholastics". In the spring of 1929 a successful Du Page County meet was sponsored, but the spring of 1930 saw something better in the Interscholastics where athletes from Illinois, Indiana, and Wisconsin matched strides with each other. This is believed to be the first of what promises to become an annual event at Elmhurst.

Graduations this spring should mean practically nothing to Elmhurst's athletic hopes for 1930-31 as members of all of the squads are underclassmen with one or two exceptions. Should all of this year's men return next fall, Elmhurst will have its greatest year in all history in every branch of athletics.

Football

Carl "Cully" Kerber was the leader of the football team which last fall made one of the most impressive records in Elmhurst's football history.

Kerber played a hard and consistent game at fullback during 1928 and was chosen as captain at the end of the season because of his all-round playing and his ability to lead under fire.

"Cully" was kept out of the game during the first part of the 1929 season because of an operation. He was seen in action for the first time against Wheaton and the one-sided score of that game indicates how the members of the Pirate team responded to their captain's words, "Beat Wheaton".

Elmhurst again had a very successful football season, having lost but one out of nine games on the schedule. Living up to their name to the letter, the Pirates fought with the viciousness and shrewdness of these old time marauders. Many times they were outweighed but they overcame the weight handicap with a swift versatile attack that needed more than weight to stop it.

Last fall, a week before the opening of school, men from last year's team and also many new prospects were at work in preparation for the hardest schedule ever made for an Elmhurst team. The blow which came when news was received of Captain Kerber's illness seemed less severe when a number of freshmen with high school experience appeared in the first practice session.

The season opened in Wisconsin with a 2 to 0 victory over Whitewater Normal in a hard fought game played in a drizzling rain.

Crane College of Chicago came here to meet the Pirates on Home-coming Day. In this game Elmhurst football enthusiasts saw Johnston lead the offensive with two forty yard runs for the only two touchdowns of the game.

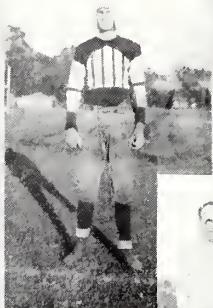

After a victory over the American College of Physical Education the team began a week of special preparation for the big game with Wheaton. The news that Captain Kerber would be back in a suit against the traditional rival of the Blue and White added to the growing interest in this contest. In this game and in those that followed, the Pirates fought, as the scores indicate, as a unit and in a spirit which even Mt. Morris, responsible for last year's only defeat, could not dominate.

At the end of the season Alfred Reed and Carl Kerber were elected as co-captains for the 1930 season.

Basketball

Edwin Hoffman has represented the Blue and White on the basketball floor every season during his work at Elmhurst.

At the end of the 1929 season he was not only chosen by his teammates as their leader for 1930 but was also given the Y. M. C. A. sportsmanship award for being the hardest and cleanest all-around player.

Hoffman played his old position at forward again this year and although he was not the leading scorer throughout the season, he played his good game of basketball of former years and brought his team through the tight places with his cool-headed leadership.

Although the 1930 basketball season did not equal that of 1929 in percentage of games won, it was very successful in that Elmhurst's teams showed up favorably against the leading teams of this section.

The first game of the season had to be scheduled early in order to take advantage of an opportunity to meet Duquesne University of Pittsburgh. Duquesne's quintet passed through here on its return from a victory over Iowa, stopping just long enough to play their scheduled game. The men from Duquesne outclassed the Pirates and defeated them in what proved to be a good game of early season basketball.

The next game was also a defeat for the Blue and White at the hands of Beloit's flashy outfit. This game was closer than the first and in it the men showed better basketball form which they developed still further during the next week to defeat Mt. Morris.

One of the outstanding features of the basketball season this year was a trip down state as far as St. Louis, Missouri. Three games were played during this trip. The first of this series was with Valparaiso, which the Pirates lost by two points. The next night they met Mc Kendree, the leader of the little nineteen conference, and were again defeated. In the game with Shurtleff, runner-up in the conference, the Pirates played their best ball of the season, playing on a par with Shurtleff, losing in the last few minutes of play by but two points.

A little brightness was added to the none too brilliant season when the Pirates finished their schedule with victories over Valparaiso and Chicago Tech.

Track

During last year's track season Ruhl was second highest in number of points scored. He counted up his large number of points by consistently winning first in both the mile and the half-mile.

Last fall as a member of the cross country team, he again showed his ability as a long distance runner by finishing near the front in every race.

As captain of the 1930 track team Ruhl has gone about his track more seriously than before. In the first meet of the season he beat his best record of 1929. With Ruhl as captain the men on the track squad have a man with both personality and ability to lead them.

THE ELMS . . . 1930

TOP ROW: Ollmann, asst. coach, Geiger, Beecroft, V. Landmeier, Rettig, Tiemeyer, Elliott, R. Landmeier, Schairbaum, manager, McFarland, coach.

MIDDLE ROW: Kregel, Blaufuss, Nolte, Henry, Ruhl, Roberts, King, Smotherman, Hartman, Neeley, Reed.

BOTTOM ROW: Altmayer, Wege, Fischer, Blohm, Reichle, Williams, Blank, Rokos.

Track Team

The track team began its work for the season with an indoor meet in Chicago against Armour Tech. Considering the fact that the men were forced to do their training out of doors in rough weather, they showed up favorably. Late snow made it impossible to do any work during the next two weeks so the team entered the first meet with very little practice.

The first meet of the season was with Chicago Normal and was an easy victory for the Pirates. Clean sweeps in the distance events were largely responsible for the victory over the small team sent out from the Chicago school.

A triangular meet with North Central and De Kalb gave Elmhurst a defeat as well as a victory for while North Central easily won first place the Blue and White runners beat out De Kalb for second place.

Without a doubt the greatest event in track at Elmhurst was the Interscholastic Track Meet held here April 26th. Athletes from all the leading high schools in this territory competed for track and field honors. With preliminary events in the morning and finals in the afternoon, Elmhurst devoted the entire day to track.

Baseball

William Smotherman, captain of the 1930 baseball team, is an experienced man at baseball as well as at football and is an able leader of Elmhurst's nine. He is a consistent hitter and a reliable man in the outfield where he is an outstanding figure because of his powerful arm. It was Smotherman's reliability that found the favor among his teammates of 1929 which resulted in his election to the captaincy for 1930.

Lots of fight and a keen interest in the game, together with his ability to play good ball should put Smotherman in the front ranks in the Pirates' baseball history.

THE ELMS . . . 1930

TOP ROW: Sander, Lambarth, Haas, W. Peters, Hutzel, Roberts, Pfeil, Briese.
BOTTOM ROW: Curtis, coach, Smotherman, captain, Cutter, Davis, Nolte, Reed, Wege.

Baseball Team

Ralph Curtis has his baseball material hard at work with confidence of producing a winning team even though he has but four letter-men to use as a nucleus in building his nine.

Last year plans had been made to eliminate baseball but the sport was taken up late in the season by an interested group under Curtis' leadership. This year it was a recognized branch of the athletic program at the beginning of the year and baseball men began early training for a place on the team.

More men have reported for practice than had been expected and from all appearances the letter-men will have to be on their toes in order to win back their old positions. Competition always makes for efficiency, a factor which will make Elmhurst's nine this spring a stronger team than it has been in previous years.

Cross Country

Vernon Landmeier was chosen captain of the cross country team after the first meet of the season.

Although he was a freshman, the other members of the team saw in him possibilities of being a capable leader as well as a good runner. He was not an experienced man at cross country running, but with the help of his high school track training, he developed into an excellent distance runner.

After a season's experience as leader of the cross country team, Landmeier will be a valuable man on the track team in the spring.

THE ELMS . . . 1930

LEFT TO RIGHT: Kregel, Ollmann, coach, Ruhl, V. Landmeier, King, Bauer.

Cross Country Team

Cross country was new at Elmhurst in the fall of 1929 but when Assistant Coach Ollmann made the fact known that a distance team was to be organized he did not have long to wait for material.

Elmhurst's first cross country team, under Assistant Coach Ollmann, had a very successful season, losing only to Wheaton. The team was made up of men with some track experience but men who had never done any long distance work. Although the veteran Wheaton team defeated the Pirates in their two encounters during the 1929 season, next year, with the help of experience gained through the past season's work, should find our harriers on even terms with Wheaton.

Ruhl led the field in the first meet which Elmhurst won from North Central College at Naperville. Wheaton won the triangular meet here the following week but Elmhurst was also a victor, beating out De Kalb. Captain Landmeier was the first Pirate runner to finish in this meet. Wheaton also won the next meet which was held on their course. Ruhl spoiled the victors' hopes of making a clean sweep by placing third. Kregel's fourth place was the outstanding feature of the victory over Lake Forest. This was the closest meet of the season and the final result was doubtful until King tied for seventh place assuring a Blue and White victory. The last meet of the season proved to be the easiest. The team made the trip to Valparaiso with the football team and followed their example of a one-sided victory. The entire team tied for first place to win with a perfect score.

Herman Kregel was elected captain of the 1930 cross country team.

Tennis

Edwin Hoffman, captain of the 1930 tennis team, has played tennis for Elmhurst for the past three years. He played number one singles last year and in the same position won his way to the state tournament in 1930. Hoffman has been a leader in several fields and under him the tennis team is bound for a successful season.

THE ELMS . . . 1930

Umbeck, Hansen, Most, Coach Arends, Hoffman.

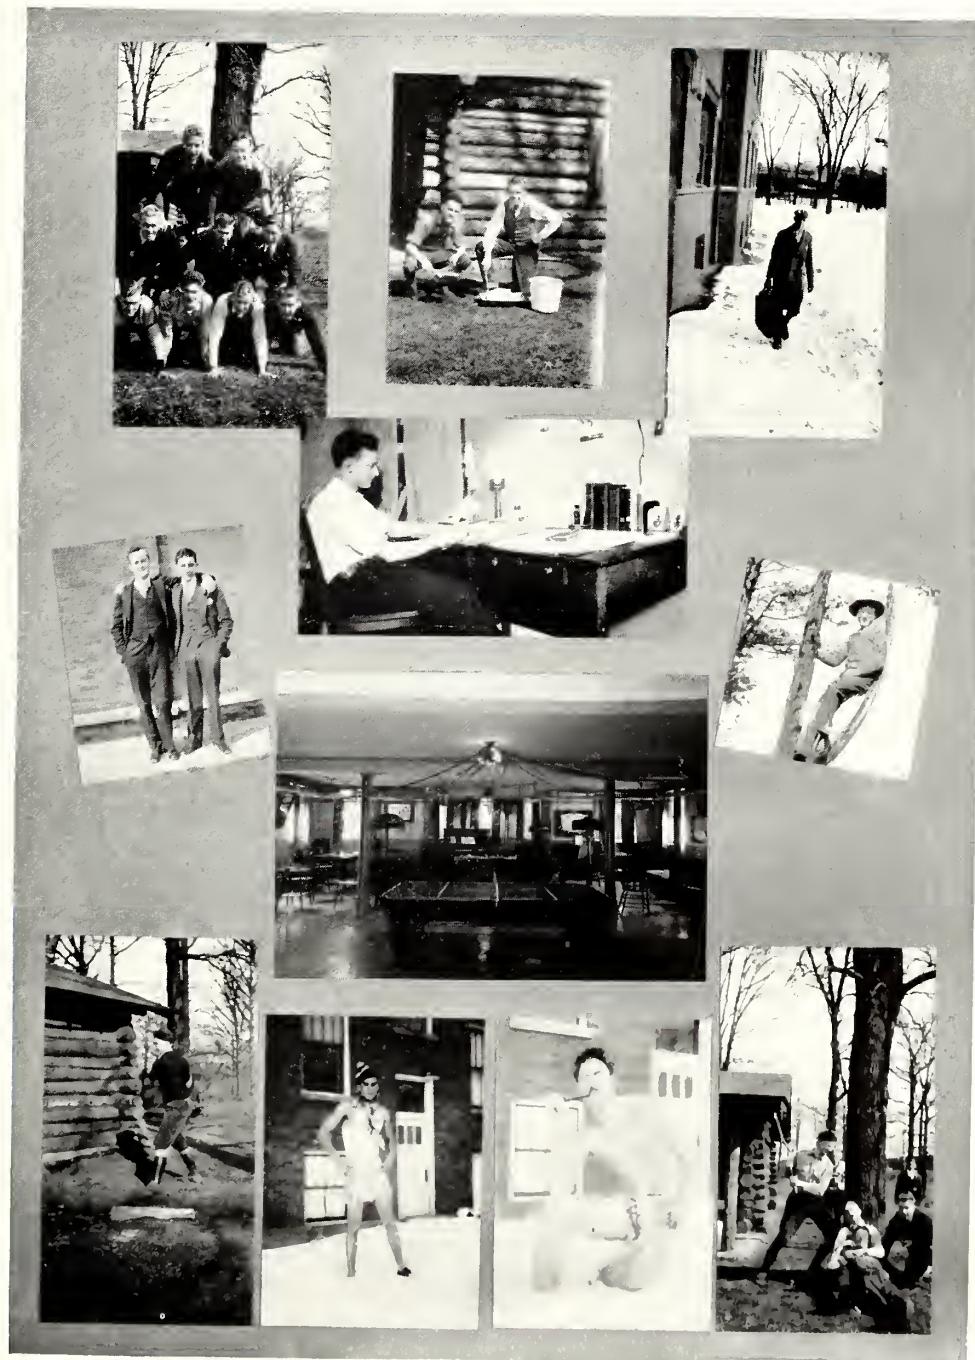

Tennis

In spite of the fact that only one letter-man is back to work on the tennis team, prospects for the 1930 season look very favorable. Several men with high school experience and two others, who worked out with the team last year, but, who did not play on the team because of their inexperience, are on deck to fill the places left vacant by graduation.

Professor Arends is working hard at his post of tennis coach, putting his men through regular scheduled workouts. Because of unfavorable weather conditions practice was held in the gymnasium during the early part of the season.

Arends knows tennis and more than that, he has the ability to put things over. A new team under a new coach appears to have a new record in tennis in store for Elmhurst.
